The East Coast Service. The urgent necessity that exists for more efficient steam service along the East Const of Vancouver Island has been repeatedly urged in these columns, and the great importance of the subject will be ample exouse, if indeed excuse be needed, for recurring to it now. The maintenance of a Government steam service between Victoria and the various coast towns and settlements can alone be justified upon the grounds of publie necessity. The question is not a local one. It is colonial in its influences. It is of importance to the Oolony, as a whole, that every part of it aball be in a contented, healthy and prosperous condition. It is in the interest of the Colony, as a whole, that the fatal drain upon its realized wealth, going out continually in payment of those supplies which ought to be drawn from its own soil, shall be stopped. In no way can this object be more readily and effectually attained than by encouraging and facilitating agricultutal development along the East Const of this Island, with a view to supplying this, the principal market, with all those articles for which so much money is still being sent out of the country. And this appears to us to be the true mission of the Sir James Douglas. She is being run in the public interest. In the public interest let it be. In previous articles we sought to catablish two propositions. First, that one trip a month to the important settlement of Comox is altogether inadequate. Second, that, by an extension of the service and a material reduction in the rotes charged one. It is colonial in its influences. It is of one trip a month to the important settlement of Comox is altragether inadequate, Second, that, by an extension of the service and a material reduction in the rates charged for frieght and passage the public would be greatly more benefitted, and the net earnings of the steamer ultimately increased. If these two propositions be established the Executive can hardly hesitate about adapting the service to the exigencies of the country. It surely needs no argument to establish the first. It is, in fact, self-evident that Comox cannot possibly do its full share towards supplying the markets naturally looking to it with only monthly communication. The natural advantages and resources of Comox are immense; yet its most industrial. looking to it with only monthly communication. The natural advantages and resources of Comox are immense; yet its most industrious and enterprising settlers can barely exist; they cannot possibly prosper, because it takes so much in rime and in money to reach the markets. In truth, the settlers in that District are left to strugglesingle handed with difficulties and discouragements before which anything but the most determined perseverance would succumb. Let in ever for their full share of crushing taxation, they are left without anything like their fair share of expenditure. Passing to consider the question of an extension of the service to Comox, there can be no difficulty in showing that weekly trips to that place would in reality entail no additional charge upon the public revenue in the first instance, and would in time augment the earnings of the steamer. Looking no farther back than the last month, the present writer is personally cognizant of a sufficient number of interprets where settlers have been be personally cognizant of a sufficient num-ber of instances where settlers have been compelled to have recourse to conveyance by cance, to cover, and more than cover, the expense of running the steamer. How much more there would have been had the steamer run we leave the reader to imagine. And more there would have seen had be steamer run we leave the reader to imagine. And we will state still farther, that unless the service to Comox be increased, and that very soon, the monthly visits of the Government steamer must become unnecessary, as the stern necessities of the settlement will be met in another way. Is the reader aware that the expense of each additional trip to Comox would be represented by the price of eight tons of coal? If the Executive still hesitates about extending weekly communication to that settlement, let it at least have semimonthly. Suppose, for the present, and as a step in the right direction, the steamer should go there two consecutive weeks every month, fixing the days of sailing so us to give the settlere as much time to do their marketing as possible, even that would be marketing as possible, even that would be an immense improvement upon the present arrangement. Let the Executive try it. Uparrangement. Let the Executive try it. Upon the other branch of our subject—that of a material reduction in the scale of charges possessing the double advantage of greatly increasing the public boon, and altimately swelling the receipts of the steamer—it will be unoccessary to enlarge. If these settlements are capable of any considerable development these results must, in the very nature of things, follow; and the former is probably the more important of the two. Governments, like husbandmen, must saw before they can reap; and if, by increasing the number of trips to Comex and a reduction in the scale of charges, the Sir James Douglas can be made instrumental in promoting greatly enlarged development and prosperity along the coast, the Government, or what is the same thing, the colony, will not fail is the same thing, the colony, will not fail to reap a rich harvest in due time. In conclusion, we carnestly arge upon the Executive an immediate abandonment of what must be

Electioneering Tour of a Defeated candidate

regarded as a 'penny wise and pound-foolish policy in the East Coast service.

WRITTEN FOR THE BRITISH COLONIST,

The country maintains its character for farming and grazing capabilities from Osoyoos to Rock Creek and from Rock Creek down Kettle river, of which it is a tributary, across the Boundary line towards Colville. Great faith is also entertained in the auriferous wealth of that section, but a multiplicity of untoward circumstances in the auriferous wealth of that section, but a multiplicity of untoward circumstances prevent its proper development. From Colville up the West bank of the Columbia to Fort Sheppard travelling becomes more difficult. Those places are but 45 miles apart, yet at Colville, being in American territory, every possible requirement both for man and beast can be obtained at cheap rates, while at Sheppard, just north of the 49th parallel, almost nothing can be had for either? The writer paid 20 cts per 1b at the latter place for oats requisite on the for either? The writer paid 20 cts per 1b at the latter place for oats requisite on the mountain, which were obtained at Col life for three cents. Thus it is that south of this imaginary line all is notivity, prosperity and go-aheadativeness; while north the withering influence of Downing street nips in the bull and effectually checks every attempt at opening up the resources of the country whether mineral or agricultural. The American Government throughout its wide domain gots ahead of the seitler with roads and trails and close upon his heels with the mails and educational requirements. Had the same policy been exercised by the government of British Columbia for the past ten years we should not in these last days of the year 70, have cause to lament the paucity of our population or the want of

prosperity in every interest connected with the wellbeing of the country. It is very humiliating for British subjects, whose love for the 'old flag' rises above every other confor the 'old flag' rises above every other consideration, to write thus or admit of its correciness; but a proper regard for truthfulness and candor will oblige every individual, after passing through the country coboth sides of 'the line' to acknowledge, that
the picture is not overdrawn. Happily for
those who for years past have watched and
waited for a different order of things, as well as for others who will soon make this colony as for others who will soon make the colony their home, a change is dawning upon us that will alter the entire face of the British possessions west as well as east of the Rocky Mountains. While, therefore, the expiring decade has been one of discouragement, obstructivenes and misrule, the one in the future will, there is every reason to believe, more than remove the odium of the past, and also pain the proud position of equaland place us in the proud position of equal-ity with, if not one of superiority to any o the states or territories along the 'line' from

the states or territories along the 'line' from
the Pacific to Lake Superior.
After crossing the Columbia at Sheppard
the Scikitk range of mountains is fairly confronted. For about twonty miles the trail
rans round the steep foot-hills and along
the Pen d'Oroille river, where considerable
mining was done in the early days of British
Columbia and which, during the latter part
of its course, madily rushes down to join the Columbia and which, during the latter part of its course, madly rushes down to join the great river of the west. Leaving the Pen d'Oreil'e, travelling becomes more and more difficult, with now and then a steep descent. Burnt timber has, in many places, completely objiterated the trail for several mites to Goat river crossing. This is an impetuous torrent, not easily fordable at low water, and at higher stages very dangerous, or utterly impassable. At this much dreaded crossing impassable. At this much dreaded crossing the ascent of the notorious Sheppard moun-tain fairly commences; and it is doubtful whether or not any worse trail can be found on the continent than the one traversing it on the continent than the one traversing it. The corduror was originally laid down without culverts, so that in some places the logs are altogether carried away by the water or are alloat on the surface of deep quagmires. In other places fallen timber has broken them up or forest fires destroyed them. It is absolute escuelty to animals to attempt to arrest from Shappard to Flat Roy Loke, even absolute esuelty to animals to attempt to cross from Shoppard to Flat Bow Lake, even during August and September, which are really the only two mouths in the year that the route is passable. How it happened that this trail was carried over the highest mount ain peak of that mountain-peaked country is beyond comprehension. Had there been no other difficulty than the extraordinary altitude—above 5000 feet—the surveyors certainly should have paused and looked out for a more practicable route; but when to this is added the impassable Goat river; half way up the western slope, and the equally this is added the impassable Geat river; nati-way up the western slope, and the equally impassable marsh at the head of Flat Bow-lake on the other side, the thing is utterly incomprehensible. The ceurse of the Koot-enay river, emptying into the Columbia about forty miles above Sheppard, should have in-dicated the proper route to have been pursued Then we should have had a trail practicable Then we should have had a trail practicable for pack trains for at least nine months in the year, while the one adopted is so completely impassable that the H B Co, even, have abandoned the use of it, and in the future they are preparing to take their supplies to the Flat Bow station round by the above menti ned river. Thus it has happened that not only has a large sum of money been equandered, but, what is infinitely worse, the entire trade of Kootenay—certainly the second mining camp in point certainly the second mining camp in point of importance in the colony—has been lest to British Columbia. This may seem strange, but it is no less strange than true. Were to British Columbia. Its may seek strange, there a good trail to Sheppard merchand ze from Victoria could be laid down at Wild Horee or Perry creek much cheaper than from Walla Walla, while fat cattle, flour, bacon, butter, &c, could be sent in from Okanagan and Kamloops, and dety competition by Collville or Oregon.

LUMLEY FRANKLIN... Yates street..... Will sell at 11 o'clock, Groceries, Wines & Liquors, Furniture, &c., &c.

For San Francisco .- The steamship Pelican, Capt Stothard, will sail at 10 this more-

ing for San Francisco. She will carry 171 tons of toal, and 20 tons of telegraph wire. The following passengers were booked up to 5 o'clock last evening; Mrs R Wright, J Walters, O Lambert, F Grelly, J McGregor, J F Drews, Jas Lowe, C Oppenheimer, L Walters, wife and four children, T Bolster, R N, A McLean, Mrs Smith and two children, Tai Soones, Kwong Lee, Miss E Taylor, Miss L Jones, Capt Scammon, U S R C, Mr. Doyle, John Barry, A Crysler, T S Tierney, A P Ferguson, E Jessop, Edgar Wright, G Jerome, M Ticus, G H Morrell, P Smith, C Rhoades and wife, T Arnold and wife, and 10 Chinamen. tons of coal, and 20 tons of telegraph wire.

PUGET SOUND ITEMS-Condensed from the Seattle Intelligencer of yesterday: Captain Scammon, of the revenue cutter Lincoln, is going to San Francisco and Washington on leave of absence.... The Railroad Commit leave of absence... The Railroad Committee are making a thorough examination of the Sound, with a view to the selection of a terminus for the Northern Pacific Railway General McKenny and family are detained by sickness at Portland.... The small pox is ravaging Oregon; and the people on Puget Sound are urged to adopt precautionary measures for avoiding a visitation of that terrible scourge.. The steamboat opposition between Scattle and Bellingham Bay has ceased, and fares are now fixed at a ressonceased, and fares are now fixed at a reason-

PAY UP ! - The Chief Commissioner of Lands and Works notifies that all occupants of pre-empted lands within the undermentioned Districts, recorded under the Vancouver Island Land Proclamations of 1861 and 1862 Island Land Proclamations of 1861 and 1804, which records were made prior to the 1st of January 1870, must pay the amount of instalments due thereon, on or before the 31st March next ensuing: Esquimalt, Metchosin, Sooke, Kenned, Highland, Lake, North Saanich, South Saanich, Shawnigan, Cowiehan, Quamichaa, Somenos, Comiaken, Chemainus, Cedar, Cranberry, Mountain, Nanaimo, Cemox.

LET THOSE LAUGH WHO WIN .- Our local contemporary affects to laugh at the twelfth anniversary article which appeared in the last edition of this journal. Well, it is tolerably certain that nobody will ever have an opportunity of lawthing at his anniversary article! Nor is there the slightest danger of the success of the BRITISH COLONIST, at any the success of the BRITISH COLONIST, at any period of its existence, being attributed to his abilities as a journalist. As to which is the 'leading journal,' and which enjoys the largest circulation, we are well content to leave a discriminating public to decide.

THAT DELEGATION .- There is something truly [contemptible, almost devilish, in the persistent efforts of the local Ishmaelite to trump up a case against the Delegates to trump up a case against the Delegates to whom this colony stands so largely indebted for the manner in, which they conducted the negotiations at Ottawa last summer. We have the very best authorily for stating that the last accusation is as groundless as the previous ones. If Mr DeCosmos could'nt be a delegate he might try to be a gentleman.

TELEGRAPH WIRE .- Twenty tons of tele graph wire belonging to the W J Telegraph Company will be sent off on the Pelican to-day for San Francisco. It has lain some years in store and was originally brought in by the Collins Telegraph Company. Twenty tons will be shipped by the pany. Twenty tons will be shipped by the Portland boat in a few days for use in Oregon, where the company are extending their lines.

' NAME IN THE SAND.' - The beautiful piece of poetry that appeared in the Mainland Guardian a few days ago, bearing the title of ' Name in the Sand,' and claimed he one 'C. R.' as original, is copied word-forword from poetical work by Miss Gould. It first appeared in print in London about

PICKETT'S GREAT HOLIDAY SALE .- Messis R F Pickett & Co's great sale of holiday goods has been fixed for Friday next, comgoods has been fixed for Friday next, com-mencing at 11 o'clock. The list comprises an elegant assortment of goods—useful and ornaments!—and will be open for inspection the day previous to the sale.

By TENDER. - The Chief Commissioner of Lands and Works notifies that tenders will be received up to noon of the 17th inst for supplying provisions to the officers, crew, and passengers on board the Government steamer Sir James Douglas.

WEEKLY COLONIST, - Copies of this jour nal may be had at the publication office and at the book stores this morning. It contains all the startling and important news from Germansen Creek. Price, 121/2 cents.

LIVE STOCK SALE .- Mr Franklin disposed of cows calves and beeves yesterday at advanced prices. The Cougar was knocked down at a low figure. At San Francisco he would bring \$300, as the species is rare.

BEACON HILL STAFF Down .- The gale of Friday night blew down the old flagstaff at the summit of Beacon Hill. It has braved for many years the breeze, but at last yielded to dry rot and a heavy blow.

ABOUT TO LEAVE US .- Our local readers will, we are sure, regret to learn that Steff-Commander Pender and Lieutenants Coghlan and Brodie will sail for England by the next and Brodie will sail for England by the lext California steamer, having been ordered to report at the Adaptralty. The survey on this station having been completed, the la-lents of these geythmen will be utilized in the service elsewhere. The Beaver will, we understand, be shortly handed over to the Hudson Bay Company's authorities here. The breaking up of the surveying party and the departure of these officers will be the occasion of no little regret in this community.

CONVICT LABOR .- It occurs to us that Nanaimo has been unfairly treated in the matter of convict labor, fas she has in fact in al most everything else. While Victoria and New Westminster enjoy the labor of their convicts, those of Nanaimo are sent away. convicts, those of Nanaimo are sent away. Surely there is plenty to be done on the streets of Nanaimo. Streets, did we say? Int off without public grants and deprived of convict labor, her streets are yet for the most part unformed. Nanaimo ought assuredly to have a proper gool boilt, and have the benefit of the labor of her convicts.

THIS is the leading paper .- Standard of yesterday.

This reminds us of the boy artist who drew a picture so execrably bad that he had exclaimed an old lady, 'I'm glad you did this—because I thought it was a pig!' The public will be glad to learn that the Standard is a paper. They had supposed it to be a soiled rag.

VICTORIANS ELSEWHERE. - Frank Laumeister is still at Elko, owner of real estate and the chicken-soup springs, which possess nutritive as well as curative properties. Simon Reinbart and Jacob Marks are the principal mer-chants of the place. Wm Culverwell is at Eureka, engaged in silver mining. R Moberly has returned to San Francisco.

GOVERNOR SEYMOUR'S MONUMENT. - Messrs Green, of the Fort street Gallery, have executed a fine photographic view of the monument erected to the memory of the late Governor Seymoni at the Naval Cemetery, Esquimalt. The monu ment and surroundings are brought out with much distinctness, and the view will be eagerpurchased by the many friends of Governor

DISTURBING THE PEACE .- John and Charley, Hydah Indians, were yesterday arraigned before the Police Court for disorderly conduct, for which they were fined \$10 each or in de-fault of payment 14 days imprisonment Bail was admitted in the sum of \$25 for each of-

BURRARD INLET .-- At the Hasting's Mills the ship Nancy and brig Admiral have nearly finished loading with lumber, and at Moody's the ship Golden Age is preparing to take in a cargo of lumber for Callao. Moody & Cobave orders on hand for 6.000.000 feet of lumber and are running night and day.

QUITE RIGHT .- The Standard-bearer laid over his leading article yesterday for 'want of space.' Knowing follow! He imagined the public would prefer to read his two pages of dead advertisements to his 'leader.' And he is quite right. They would.

Coming Back again - Many of our local readers will be glad to learn that the Pixley family and Mesris Ward and Melville, who are now playing to very good houses at Seattle, will return to this city next week to play a short engagement.

GONE TO PORTLAND .-- We understand that the Hudson theatrical troupe have left Puget Sound for Portland. They had not very good success on the Sound.

To Arms'-Thos Gorrie, Santa Claus' Depaty, is again in the field with a magnificent stock of toys and fancy goods for the young. He summonses the infant-ry of Victoria 'to

GERMANSEN CREEK GOLD .- It is believed that gold from Germansen Creek will assay \$17 to the ounce. It is of a dark color and ranges from small scales to pieces weighing \$8 and \$10.

THE steamer Olympia, Capt Finch, arrived from the Sound last evening at 7,30 o'clock with 50 passengers, 16 head of cattle and a quantity of other fraight. Purser Finch has our thanks for customary favors.

Tue fault in the cable was found on the beach at Sydney Island on Sunday and was repaired by the Superintendent in time for dispatches to reach Victoria the same even-

THE STATE HARBOR COMMISSIONERS at San Francisco are about to reduce the rates of dockage, finding that the high rates charged shipping are driving commerce to Oakland and Vallejo, two rival cities.

THE ship Pocahontas, spar laden, arrived from Burrard Inlet on Sunday in tow of the steamer Grappler, Capt Deverenux. She will sail to Cork for orders.

Assault.-Peter Doyle for committing au assault upon John E Burke, was mulcted in the in the sum of \$10, or in default of payment, 7 days imprisonment

New -A fine express wagon for Wells; Fargo & Co's office at this place, arrived on the Pelican on Friday.

THE THEBATENED TAX SALES .-- The deputa tion of property-holders will wait on the Gove ernor, at Government Buildings, at 114 o'clock this morning.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES: Europe.

Tours, Dec 10—In an engagement on the 30th November at Peloy, 20.000 French held their ground against 60,000 Prussians of Prince Charles' army, but were out to pieces, by the enemy's shells. The Gorman artillery was streed with fatal and overwhelming effect. The Papsi Zouaves fought bravely, but were nearly all killed.

The Government appeals to the people of Facace to maistain a resistance which, they say, will end in triumph.

The army of the Loiro is still 200,000 strong, and 800,000 Frenchmen will be in arms in a month, even if Patis should fall.

Loxpox, Deo 5—A dispatch from Tours says that in a battle on the 4th near Orleans the French had 60,000 men engaged. The battle ended in the repulse of the French. On Sunday the success of the Germans was

grout, although obtained at great cost.
There is reliable evidence that Russia is
preparing for war on a grand scale.
New York, Dec 6—The Prussians sent

A fing into Paris to announce that Orleans is taken and the army of the Loire routed with a loss of 30 guns and 1000 prisoners.

There is a report that Doctot is killed.

Dispatches in the matter of the Euxine have been sent to Vienna, Florenca, Tours and Constantinople. The tenor of all the Russian demands is that compliance with hem is essential to the mnintenance of roace.
The King of Prussia telegraphs to the

Queen on the 5th; Orleans was occupied lest night without being stormed. The 3rd corps took 9 canon and 1 mitrailleues. The 8th corps of the first army beat the French on the 4th in the north east. BECOMING AMERICANIZED .- The Chiese in Nevada seem to have a fancy for Melican matrimony, two couples of celestials being spliced in one day. We clip from the locals of the Enterprise a notice of their wedding cermonies:
Justice Ellis yesterday united in the holy
bonds of 'Padlock' Wang Chow and
Sing Pow. Tom Poo acted as interpreter and Chief Downey as master of cermonies. Downey put up a 'yob' on the Justice. Through the interpreter he impressed the bride with the belief that the marriage would not be binding unless the Justice kissed her, Seeing that he made no more to put this finishing touch to the cermony, Sing How went after him, He tried to dodge, but it was of no use, she pulled his head back over his chair, and with a good grip on his front hair, actually kissed him before all in the Court room. The Judge says he did not mind it so much as she was 'counfoundly good looking' for a Chinawoman. Ah Sing and Wee Suo were yesterday married, Melican fashion,' by Justice Livingston the Judge being a modest man, did not kiss the bride. As she seemed to think that the ceremony was not concluded until some-body had kissed her, the kissing was done by Ben Lackey, Bill Coryell, Sam Wiggenstein, Andy McCoy, Officer Brinton, Davo Stearns, Sammy Prige, and nerely all the rest of the registered voters in the Third Ward. Mrs Wes Sue sported a waterfall that looked like the rudder of a clipper ship, and she did not much like the idea of having it rumpled; therefore she repelled the awkward astempts at kissing made by the boys saying, 'You no sabbe kisse—me kisse you, you likee.' 'Melican fashion,' by Justice Livingston
